PRELIMINARY STATEMENT

It is important that anyone reading these responses begins with the understanding that ACandS, Inc. ("ACandS") is not now, and has never been, a miner of asbestos or manufacturer of asbestos-containing products. As described in further detail herein, ACandS is and was a contracting company. As such, the Company's primary association with asbestos-containing products

1 was as a purchaser and user of such products in accordance with  
2 contract requirements and specifications.

3 ACandS is, and has been since it began operations in 1958, a  
4 contracting company primarily engaged in the installation of  
5 thermal insulation materials. The Company utilizes and provides  
6 various thermal insulation materials as they are called for by  
7 contract requirements/specifications. During the period from  
8 January 1, 1958 through 1973, some of those materials contained  
9 asbestos. By January, 1974, the Company's policy was that it  
10 would not furnish, handle, use or install products containing  
11 asbestos except for products in which the asbestos fibers were  
12 encapsulated or coated, such as mastics. Accordingly, to the  
13 extent that any request relates to periods prior to 1958, it is  
14 not applicable to ACandS; to the extent that any request relates  
15 to periods after 1974, ACandS objects to each such request on the  
16 ground that it is not reasonably calculated to lead to the  
17 discovery of admissible evidence, is overly broad and seeks  
18 irrelevant information. Unless otherwise stated in an individual  
19 response, all responses relate to the time period 1958, when the  
20 Company began operations, to 1974. ACandS has no predecessors or  
21 successors and all answers set forth herein are made solely on  
22 behalf of ACandS (formerly Armstrong Contracting and Supply  
23 Corporation), the defendant named herein.

24 The information used in answering these requests was  
25 assembled by authorized employees and counsel for ACandS, Inc. and  
26 was derived primarily from an ongoing review of ACandS' records

1 and information compiled from past and ongoing discussions with  
2 ACandS' past and present employees. Because much of the informa-  
3 tion is of, or relates to, events of years ago, it is difficult,  
4 if not impossible, for ACandS to retrieve or reconstruct some of  
5 the requested information. Therefore, ACandS reserves the right  
6 to amend these responses if new or more accurate information  
7 becomes available or if errors are discovered. Furthermore, these  
8 responses are given without prejudice to ACandS' right to rely at  
9 trial on subsequently discovered information or on information  
10 inadvertently omitted from these answers as a result of mistake,  
11 error or oversight.

12 ACandS does not waive these objections by providing  
13 responses to individual requests or by raising additional objec-  
14 tions to individual requests. The preliminary statement and all  
15 objections set forth herein are incorporated by reference in each  
16 response set forth below.

17  
18 **REQUEST FOR PRODUCTION NO. 1:**

19 All documents or any "writing" (as defined by Evidence Code  
20 Section 250), whether the business record of defendant or another  
21 entity, or whether a document that is not a business record of any  
22 entity, including but not limited to invoices, sales records, job  
23 files, contract records, deposition transcripts, or any other  
24 documents in the possession, custody or control of the defendant  
or its agents, including in the custody of its attorneys,  
reflecting, describing or evidencing the sale or shipment by any  
entity, business or person of any asbestos-containing products or  
materials to or for the use at or on any of the following  
locations at any time during the times indicated, inclusive:

25 Long Beach Naval Shipyard, Long Beach, California, at  
26 any time during 1963 to 1965;

1 New York Naval Shipyard, New York, at any time during  
2 1952 to 1955 and;

3 Puget Sound Naval Shipyard, Bremerton, Washington, at  
4 any time during 1964 to 1965.

5 **ANSWER:** ACandS objects to this request on the grounds that it is  
6 overbroad, unduly burdensome, and seeks irrelevant  
7 information not reasonably calculated to lead to the  
8 discovery of admissible evidence since, among other  
9 things, it is not limited to the ships on which  
10 plaintiff is alleging occupational exposure to asbestos-  
11 containing products or to the asbestos-containing  
12 products to which plaintiff alleges exposure. ACandS  
13 also objects to this request on the grounds and to the  
14 extent that it seeks information from ACandS about New  
15 York Naval Shipyard during time periods before ACandS  
16 began business operations. ACandS was not incorporated  
17 until November 26, 1957 and did not begin business  
18 operations until January 1, 1958. Further, the text of  
19 this request, particularly in its reference to "the  
20 sale....or shipment" is vague and ambiguous in its  
21 application to a contracting company such as ACandS.  
22 ACandS is not now, and has never been, a manufacturer  
23 of asbestos-containing products. ACandS is not now and  
24 has not in the past engaged in the business of directly  
25 selling asbestos-containing products. Without waiving  
26 its objections, since it began operations on January 1,  
1958, ACandS has been a contracting company primarily

1 engaged in the installation of thermal insulation  
2 materials. During the period from January 1, 1958 until  
3 approximately 1973, ACandS utilized and  
4 provided various thermal insulation materials containing  
5 asbestos when called for by contract requirements and  
6 specifications. Those materials were manufactured by  
7 others. In connection with its contracting business,  
8 ACandS sold some of those products directly to other  
9 entities, but the sales were minor and not a primary  
10 business activity of the Company. To the extent that  
11 this request seeks information about ACandS' contracting  
12 activities at the shipyards and during the time periods  
13 identified herein, ACandS has no record of having  
14 obtained any contracts for work to be performed at Puget  
15 Sound Naval Shipyard in Bremerton, Washington during the  
16 time period from 1964 to 1965. A review of ACandS'  
17 records indicate that the Company's Los Angeles branch  
18 office obtained one contract in January of 1963 for work  
19 to be performed at a jobsite identified as the "Long  
20 Beach Naval Shipyard" with "Pascal & Ludwig" as the  
21 customer and the estimated amount of that contract was  
22 \$50.00. A copy of the relevant contract log entry and  
23 the Los Angeles Branch index card referencing that  
24 contract will be produced. To the extent that this  
25 request seeks to determine whether ACandS engaged in the  
26 direct and outright sale of asbestos-containing products

1 to the shipyards identified in this request, ACandS has  
2 not located among its existing records any documents  
3 identifying the outright sale of asbestos-containing  
4 products by the Company to the Long Beach Naval Shipyard  
5 or to the Puget Sound Naval Shipyard. As stated above,  
6 plaintiff's request regarding the New York Naval  
7 Shipyard is for time periods before ACandS began  
8 business operations. ACandS was not incorporated until  
9 November 26, 1957 and did not begin business operations  
10 until January 1, 1958.
