

DD445Class/348-24(24-5286)

- 2 -

Supervisor of Shipbuilding files.

2. The above plans have been altered as noted in Federal (Gibbs & Cox) letter, Enclosure (D).

3. By copy of this letter, Yarnell-Waring Co. is advised that plans, Enclosures (A) (B) and (C) were modified by this office prior to submitting same to the Supervisor of Shipbuilding as follows:

Plans, Enclosures (A) (B) and (C)

Added alteration notes to cover changes made on these plans.

Plan, Enclosure (C)

Changed quantity of fitting F80003 from 11 to 10 and fitting F80003A from 8 to 7 to agree with the arrangement of the Steam Drain Collecting System in the number 2 Engine and Fire Rooms on the subject vessels.

4. A modification to the subject material requisition is being prepared by this office to cover the changes outlined in letter, Enclosure (D), and as noted in paragraph 3 above and copies will be forwarded to the Supervisor of Shipbuilding at an early date.
